SR CYBER LABS Non-Commercial License:

This license has been formulated to safeguard our intellectual property and uphold the non-commercial essence of our research and development endeavors. It expressly prohibits unauthorized usage and distribution of our materials while permitting educational and research-oriented activities under appropriate attribution and with prior consent.

All content and materials available within the SR CYBER LABS Prompt Engineering Repository are copyrighted and constitute the intellectual property of Sam Rohan, Director and Chief Engineer at SR CYBER LABS. These resources are exclusively intended for educational purposes. By accessing this repository, you are hereby granted permission to view, print, and download extracts for personal educational use, contingent upon the following stipulations:

Documents may be downloaded from our GitHub repository for personal use exclusively.

Any copies, whether partial or complete, stored on digital or physical mediums, are for personal viewing or for printing individual extracts for non-commercial personal use solely. The sale of courses, webinars, seminars, training programs, and workshops employing these materials is strictly prohibited. For establishing contractual partnerships aimed at teaching courses or conducting related activities, please contact us for further discussions and formal agreements.

Further distribution, dissemination, reproduction, copying of document content, or uploading to other platforms for commercial or unauthorized purposes that may infringe upon Sam Rohan's intellectual property rights is strictly forbidden. For research purposes requiring access to our materials, please contact us for permission, ensuring proper attribution in presentations by indicating the sources and foundational materials used. Collaboration inquiries regarding our R&D programs are welcomed, and we are available for discussions to explore potential collaborations.

The use of graphics, images, or photographs from this document for unauthorized purposes is explicitly prohibited.

No portion of this document or its content may be modified, adapted, or altered in any manner.

Reproduction or storage of any part of this document on other websites or inclusion in any public or private electronic retrieval system or service without prior written consent from Us is prohibited.
